ALLEGED MURDER IN A JAPANESE HOTEL

Between eight and nine o'clock on Friday night a Japanese, who is presumed to be seaman, went into the "Yamamoto Kwan" at No 55 Connaught Road Central. Shortly afterwards three other men entered and apparently made the acquaintance of the first appears. man, for the four sat down at a table to spend a convivial evening. The sudden friendship. however, was not a lasting one. After a meal and several drinks the three men quarrelled with their new acquaintance and knives are said to have been produced. The Japanese woman who keeps the botel, seeing that matters were ge ting serious, rushed out to call l assistance. On her return the room was empty, but she discovered a pool of blood on the floor. The man who was attacked by the three, it is said, as soon as he could escape rushed into the adjoining Chinese shop, where craft? In some countries this question where; but in politics a spade is rarely a he became unconscious, while the alleged murderers decamped. The master of the Chinese shop reported the matter to the police who, on arrival, found the Japanese lying on the verandah bleeding profusely from several knife wounds about the body. An ambulance was speedily procured, and the injured man removed to hespital, but he expired on the way No arrests have yet been made, but the detectives are in pursuit.

BISHOP FITZGERALD DIES IN HONGKONG.

The death took place on Thursday at the Government Civil Hospital of Bishop James N. that seems called for. Out-here, not being protest was anti-climax, and spoiled the Fitzgerald of the Methodist Eriscopal Church. Deceased, who left America in October last accompanied by his wife and family, was on a tour of the world, and after presiding at conferences in India and Burmah continued his journey eastward. At Penang his daughter contracted smallpox and died on 2nd March. Doubtless this bereavement affected the Bishop's health. Shortly after his arrival at Hougkong he was attacked by pleurisy and as stated succumbed on Thursday. The deceased, who was born in New Jersey, U.S.A., in 1837, was elected a bishop of the Methodist Episcopal Church in 1888. It is singular that his visit to Hongkong should have coincided with the arrival of two other dignitaries of the same church, Bishop Spellmeyer (America) and Bishop Bashford (Shanghai), who are also touring round the world but in different directions.

The body will be taken to America for interment on board the Pacific Mail steamer China.

TOPSY-TURVY DINNER.

THE LATEST IN FREAK ENTERTAINMENTS.

Freak dinners have come in with Lent, and American ingenuity again triumphs in finding a new-way to surprise guests. Mrs. M. E. Bernheimer, whose husband is one of the West Seventy-second-street millionaires. entertained twenty-eight guests in a topsyturvy way that her emulators will find hard to

The menu was reversed. Dinner began at six o'clock with black coffee, followed by crackers and cheese, and so on through an elaborate ill that ended with soup and oysters. But this was only a part of the freak. The guests sat on the table and the several dishes were served on

Concessions were made to comfort by sawing on the table legs, so that short persons could rest their feet on the floor, and the chairs were elevated by splicing extra lengths to their legal Some very expensive furniture was thus sacrificed to the craze for novelty.

After the dinner the entire party went to theatre, returning to Mrs. Bernbeimer's residence at midnight, where at one o'clock in the morning the entertainment concluded with a regular breakfast, bacon and eggs, hot rolls, fruit, coffee, and so forth, served in the conventional order.

ENLARGEMENT OF THE KIEL CANAL.

A Bill is shortly to be introduced into the Reichstag providing for the enlargement of the Kiel Canal. The cost is placed at ten millions sterling, and the work of construction is expected to take seven years. The enlargement has been found necessary owing to the Same as No. I. increased size of the battleships which will henceforth be built for Germany.

THE HONGKONG AND KOWLOON WHARF AND GODOWN CO.

An extraordinary general meeting of shareholders in the Hongkong and Kowloon Wharf and Godown Co. Ltd. was called for yesterday afternoon to confirm resolutions passed at a previous meeting. The Hon. Mr. W. J. Gresson presided. There were also present Sir Paul Chater, the Hon. Mr. E. Osborne (secretary) Messrs A. G. Wood, A. J. Raymond, C. R. Lenzmann, E. Goels, G. H. Medhurst, (directors) T. F. Hough, Ho Fook, H. P. Smith, J. Orange, W. A. Cruickshank, and E. J. Hughes,

The SECRETARY having read the notice con. vening the meeting. The CHAIRMAN moved the first resolutio concerning the alterations in the Articles

Association. Mr. ORANGE seconded, and the resolution

was approved. The second resolution as to when the changes should come into force was also carried on the motion of the CHAIRMAN, seconded by Mr. ORANGE.

THE ANGLO-JAPANESE ALLIANCE.

GERMAN VIEW AS TO ITS STABLITY.

Count E Reventlow discusses in the Leipzig Tageblatt the world situation created by the onglo Japanese Alliance. He says that there is no doubt that this Alliance would be no obstacle to the Americans if the latter were otherwise ready to conduct the war with Japan, which so many experts consider inevitable. He

"Every American knows that England would fight shy, for economic and Colonial political reasons, of a disagreement with the United States, and that her relations with Japan, important though they may be to her, would, in case differences arose, occupy a secondary place. The situation created by an American-Japanese war must in all probability mean the dissolution of the Alliance between England and Japan, for such an Alliance would be rendered insupportable for England by Germany. The moment would then have arrived when the United States would need us, and when they would have something considerable to offer us."

STOCK EXCHANGES AND BOURSES.

QUALIFICATION OF MEMBERS FOR NOMINATION.

Some comparisons are made in an article by Mr. Edgar Crammond in the Contemporary Review between the terms upon which members are admitted to the London Stock Exchange and to the great foreign Bourses. Candidates for the London Stock Exchange must be recommended by three members who must engage to pay £500 to the creditors of the candidate in case the latter should be declared a defaulter. within four years from the date of his admission. He must be nominated by an existing member, who thereupon ceases to be a member of the Stock Exchange. The present value of a nomination is about £30. New members are required to hold of loast two shares in the Stock Exchange, the present man hot price being over £250 per share; and finally they must pay an entrance fee of £500 The terms are very much lower in the case of candidates who have served as clerks on the Stock Exchange

The financial strength necessary to obtain admission to the London Stock Exchange is ridiculously disproportionate to that required in the case of the New York Stock Exchange and the Paris Bourse. In Paris an "Agent de Change" has to be a capitalist with nearly £100,000 within his personal possession. The number of members is limited to seventy, and admission is only possible in the event of the death or resignation of a member. The vacancy is sold to the candidate at a price fixed by the committee-the latest price being about £60,000 In addition to this amount, the candidate must satisfy the committee that he is possessed of a working capital of at least £20,000, and he must also deposit £8,000 with the committee and

£4,000 with the French Treasury. In the case of the New York Exchange the membership is limited to 1,200, and candidates can only obtain admission by purchasing the seat of a deceased or retiring member. The present value of a seat in the New York Stock Exchange is about £17,500. A candidate must be proposed by two existing members, who are called upon to state whether they would accept the candidate's uncertified cheque in payment for securities to the value of upwards of £3,000.

LORD AVEBURY AND THE HOUSE OF LORDS.

Lord Avebury has replied as follows to a correspondent who drew his attention to some remarks of Mr. Churchill, M.P.; referring, at Manchester to the Education Bill, Mr. Churchill said-"The peers had deliberately provoked a constitutional struggle; every effort at compromise and conciliation had been insultingly rejected": -"There seems to be considerable difference of opinion amongst the supporters of the Government whether their objection is to the House of Lords as at present constituted, or to the existence of a second Chamber at all. In my judgment, the existence of a second Chamber is essential to the satisfactory working of our Constitution. If, however, the House of Lords is strengthened, conflicts between the two Houses would certainly be more frequent than at present. I observe that the hereditary character of the House of Lords is the feature most-frequently-condemned, and yet the peers who are not bereditary are those most often attacked. As Mr. Balfour stated in the debate on the 18th inst., the House of Lords as at present constituted often has, and I believe would, pass measures which they did not approve but which they believe to be eriously desired by the nation at large. I do not believe that this is the case with the Education Bill. It does not apply to Scotland or Ireland, and yet the majority by which it was passed consisted largely of scotch and Irish members. Moreover, the Publication Department of the Liberal Central Association have candidly admitted in their report on the last general election that, on a total poll of nearly six millions, the Liberal and Labour majority in votes is 83',000, or, excluding Ireland, 637,000. If the Government only held as many seats as this vote majority entitled it to proportionally, this seat majority would be 94. As a fact, it is 354. The third reading of the Bill was carried by 309. It is clear, therefore, that, if the House of Commons corresponded to the votes in the country, the Bill would have been lost. Evidently, then; the House of Lords in this case represents the views of Englishmen more correctly than the House of Commons."

On the whole, gentlemen, your property has been well looked after. You will directors would welcome very heartily. They see, if you turn to the account that although | were all of one mind on that point and if none last year we put a lakh to repairs account, we of the shareholders had made such a proposition have expended that sum and some Tls. 15,000 | the directors would have done os. more. The extra amount spent was due, to a certain extent, to the Hongkew Wharf staging being found in bad condition. It is a very old wharf as you know and as we opened it up we found its condition was worse than we had anticipated. The repairs were promptly taken in hand and the wharf has now been put all right; the greater part of the cost came from the ordinary Working Account and the balance from Repairs Account. Your property to-day is in a very good condition and when we have spent Tls. 20,000 more it will be in firstclass condition from one end to the other. A Tungkadoo we have completed the wharfing it now extends from boundary to boundary and there is now one almost continuous line of wharfing of the very best kind. The water is of sufficient depth for the largest ocean steamers and it is in every way satisfactory. There have been no slips nor trouble of any kind in connection with the wharfing. I might mention that behind the Pootung wharf we have recently purchased some forty-two mow of land, which will give us an oblong block of property that can be developed very fully and which will enable us to have storage accommodation at Pootung that will meet with the increasing demands of this port. The purchase was made at a reasonable rate, viz. The 1,300 per mow. The land is suitable in every way. It completes our other property and enables us to develop it thoroughly. Turning to the accounts, you will see that there is a very considerable increase in the balance on this year's working account over last year. The former amount was Ils. 638,000 odd while this year it is Tls. 784,364. Of course we have had a very considerable increase in our receipts, and our exponses also have increased largely. It is a well-known fact to all of lyou, gentlemen, that the price of labour and the price of everything in this port has gone up considerably during the year. In spite of that we have got quite a marked increase over last year's working. Looking further down the balance sheet, you will see that during the past year Tls. 487,210 has been spent from Reserve Account. That is represented by the purchase of land behind the Pootung Wharf and by these new godowns which we have put up. There is still a further sum of two lakes to be paid out of this year's revenue before the programme of building which we initiated last year has been completed. In the accounts receivable you will find that at he end of the year there was a balance out standing of Tis. 262,698. Fince the books were closed on December 31st, last we have got in Tls. 180,000 and the balance is perfectly good. That, I think, gentlemen, is all that I need say, but no doubt some things hav escaped my attention which you might like to know, so that before I move that the report and accounts | be adopted I shall be very glad to answer any question that any of you may wish to ask.

for the year? The Chairman replied that he preferred not to make that statement in public, but the books of the Company were always open to shareholders and any one could examine the books if he so desired. As no further questions were asked, the Chairman proposed, Mr. McLeod seconded, and it was carried: That the Report and Accounts as presented for the year ending December 31st, 1906, be accepted and passed. Mr. Barff proposed, Mr. Potts seconded, and it was carried unanimously: That Messrs. A. McLeod, E. C. Pearce C. W. Wrightson and the senior representative of Messrs. Jardine,

Matheson & Co., be re-elected directors for the current year. Mr. Williams, and carried: That Messrs. G. R.

Wingrove and H. G. Haytor be re-elected auditors for the Company for the present year. The Chairman-It gives me pleasure to propose that a final dividend of Tls. 10 per share be declared for the year 1906. You will see from the Report that what the directors propose to do with the credit at Profit and Loss Account of Tls. 518,117 is to pay a final dividend on the old shares of TIs. 10 per share thereby absorbing Tls. 320,000 and we wish to place Tls, 100,000 to credit of Repairs Account. I hope will not have to use this latter amount, but it is a proper and right method of dealing with the case. We also propose to transfer Tls. 75.000 to edit of an equalisation of dividends account forward Tis. 23,117. The reason oredit such a large sum as Tls. . a,000 to the equalisation of vividends account is that we feel very strongly—at any rate the general managers do-that wharfingers' business assue of new shares at a premium still to be is absolutely on the crest of the wave. We have had two years of depression in the piecegoods trade, which means that godowns have been full of cargo, and it is when their godowns are full of cargo that wharfingers reap their harvest. Now that is not in the interests of our constituents and I hope the depression will not continue unduly. We have had a good have istributed what I hope you will say is a very good dividend and. we, therefore, ought to make provision for the future, in order that we may not be at the mercy of share gamblers and in order to continue our business on prosperous lines. When we have a good year we must take advantage of it and prepare for the bad years which will unanimously:undoubtedly come. Last year your Chairman thought that this year we would not be so successful, but contrary to expectations this has not been so. I think that next year will not be such a good one. We may have more competition and we must be prepared to meet it. While undoubtedly your Board will increase in general prosperity, yet there may come a time when the directors will feel the strain. Rates may be cut, and we must elected Auditor for 1907. be prepared to cut rates also. YANGTZE WHARF AND GODOWN CO., LD.,

The annual general meeting of shareholders in this Company was held at the offices of the general agents, Messrs. Carlowitz and Co., on March 30th. M. C. F. Rayner (Chairman, said. There has been a slight decrease in the amount standing at credit of Working account owing, partly, to the General Agents' commission having been deducted from the earnings instead of being shown on the debit side of Working Account and, furthermore, to there having been much less machinery, coal, stores, etc., connected with the late war on storage; wages of permanent foreign and native staff have increased because we have considered it good policy to take on more men in order to be able to dispatch all business promptly and to give satisfaction to our customers; the expense of running our steam ferry to the wharf has increased, owing mainly to the high price

of coolie hire, on the other hand, shows a considerable saving as compared with last year, owing to our godowns having been in such a congested state that we have been obliged to turn away steamers. I should like to remark in this: connexion that it is a mistake to imagine that because our godowns have been full all through last year we ought to show particularly good results. A wharf does best when goods do not stick in the godowns, but keep on moving in and out freely, so that all the steamers offered can be accommodated and the Company's wharfage facilities can be fully made use of Things are looking up in this respect and goods are moving much more freely. Our buildings, pontoons and lighters have as usual been kept in first-class repair and the cost charged to Working Acc unt. We have, furthermore, raised the floor of all our godowns. with the exception of shed E, above the level of the floors in 1905; this extra expense also has been charged to Working Account. If the

accounts as before you should be passed Reserve Account will stand at Tls. 50,000, or say twenty per cent of our paid-up capital which for a company in the sixth year of its existence, after having paid a regular dividend of eighteen per cent, seems to be very satisfactory. As regards the purchase of the land on the Pootung side on which the Company is at present carrying on its business and respecting the transfer of which, as mentioned in the Chairman's speech at our last annual meeting, difficulties had arisen, your Directors have after careful consideration thought well to agree to a compromise under which the purchase has been cancelled in consideration of

If you stop for a moment to consider that our original lease was arranged for seven years ago, when rents were very low, you wil understand what this particular condition our compromise-" without any increase in the rental"- really means to us. As a matter of fact your Directors honestly think that this arrangement is actually an improvement on our purchase, especially as it relieves us of the necessity to issue the contemplated Debenfure Loan. This enormous prependerance in the case of the United Kingdom showed that we were far less contained than were some other countries, and this was an important factor in considering fiscal questions from time to time. SIR JOHN FISHER.

TELEPHONE No. 135.

The Prime Minister is considerably embarrassed by the persistent demands of a certain section of his supporters for the appointment of a committee to inquire into the training of naval cadets. The cause of his embarrasament is the determination of Sir John Fisher to have nothing whatever to do with Various topics were dealt with at the resumed | such an inquiry, as he considers any criticism already available showed that employment was meeting. Sir John has expressed his d-terbring in a bill in substantial agreement with the | mination to resign three times lately, and the other day it was on the point of being accepted. The fact that he did not then and there resign mere y means that the Government is anxious not to lose his services at the Admiralty, for he has done admirable work, and his withdrawal would be most awkward as giving an excuse to the opposition to raise their favourite cry that the navy is always in danger under a Liberal Administration. The situation is, however, so difficult that Sir John's resignation may take effect at any moment.

> > DYNAMITE EXPLOSION NEAR NEW YORK.

An extraordinary panic was caused in all parts of this city on March 3rd by an explosion of dynamite at the New Jersey end of the tunnel of the Pennsylvania Railroad which is being constructed under the Hudson River. This is situated at Homestead, about two miles from New York. The entire store of dynamite, the quantity of which has not yet been sacertained, exploded. Windows were broken all over this city, persons in hotels and restaurants rushed into the streets, and it was the general belief that an earthquake had occurred. Many of the police reserves were called out, and at some points large crowds of terrified people congregated. The explosion was felt as far away as Greenwich, 60 miles from New York, where houses were shaken as though by an earthquake.

Considering the force of the explosion, astonishingly little damage was done in the immediate vicinity. Some houses were wrecked and a few persons were injured, but according to the latest reports nobody was killed. The first reports were that from 30 to 70 persons

CHINA IN CANADA

The Canadian Gevernment has taken an important and interesting step in securing ber title to lands in the far north which some day may prove of value. Her awa history suggests the need for careful examination of data in regard to new lands. La Salie, the great French explorer of the American Comment, imagined that he could get to think by way of the St. Lawrence. When he reached the rapids' near Montread hathought that this was indeed China, and he recorded his mistake in the name by which they are still called, Lachine Rapids. It is an interesting thought that this daring adventurer should have fancied himself in the home of the people who, twelve and a quarter centuries earlier, had made the great voyage from their home and discovered the continent which La Salle now wanted to call, and did call, China. The Norsemen had been there too, but unlike their Celestial predecessore left no record behind them. The Chinese, if their own story be true, built temples in Mexico and worshipped there, all those centuries before Columbus landed, believing that he had found India. ATHLETES & SELF-CONTROL

Even the most famous athletes confess to experiencing a slight feeling of nervousness immediately before the commencement of a contest. Relating his impression of his triumphant encounter with Madrali, at Olympia, on April 28, 1905, the victor admits to a sensation of tense expectancy which

is almost as distressing as actual physical pain. Seemingly, a man in perfect training may suffer defeat through a sudden and unaccountable loss of nervous control. It is an open secret that many athletes whose names are household words, take the precaution of keeping their nerves in good trim with a course of the well-known nerve tonic, Phosferine, so that they may be certain no mishap will befall them at a critical moment. Don't let there be any chance of mishap, take Phosferine, and you will find your nerves quite equal to any FORT

"APOLLO" THE IDEAL ATHLETE

TELLS HOW TO AVOID WASTED EFFORT "APOLLO" writes :-- "When I left South America, some six years ago, I had a bad attack of Sciatica, which left me prostrated and totally unfit. An agent of yours in Southport recommended Phosferine, and a few bottles soon put me right again, since then I have used it for Neuralgia, and found it a real good thing. Over-training and sustained exertion tries one considerably, and for the weariness so induced, Phosferine is the only remedy that quickly pulls me round, especially have I found it give relief in the tired feeling, caused by depressing or hot weather. A good deal of brain work falls to my share in my journalistic work, and in this. Phosferine has for some years been a great friend to me, and, whenever I can, I always give it a good word, for it is a remedy that has never failed me."-June 6, 1906.

BUSINESS ZEAL FOR THE MOHENZOLLERN

A London halfpenny journal learns that the German Emperor, as well as several prominent members of the most exclusive class of German aristocracy, are active men of business who do not hesitate to canvass orders on behalf of

their respective firms. This interesting information is contained in an urgent appeal addressed by a young German nobleman to his fellow aristocrats to emancipate themselves from the obsolete idea that it is beneath their dignity to participate in any commercial occupation.

The Emperor possesses extensive pottery works on his estate at Cadinen, in East Prussia, and conducts them himself with great commercial zeal. Exquisite productions of the imporial factories are sold in the Berlin branch of the business, which is known as the Hohenzollern Stores.

The Emperor thus openly trades under his own name, and, moreover frequently seizes snitable opportunities to canvass orders. When he notices a likely purchaser of wares from his factories at court or other festive gatherings. he asks him whether he cannot place an order. and if the answer is in the affirmative the Emperor draws a pencil from his pocket and scribbles the order on his cuff, and does not conceal the pleasure he has in having done a stroke of business.

Prince Christian Hohenlohe, a member of a mediatised royal dynasty, possessing equal rank with all the reigning houses in Europe, carries estate at Ochringen, Würtemberg. One factory | business. makes oatmeal, sold under the name o' Hohen. lobe oatmeal. Another makes cakes, sold under the name of Hohenlohe cakes. A third factory produces corsets sold under the name of Hohenlohe corsets, and much sought after by south German ladies on account of their princely

trade mark. Prince Egon Fuerstenberg owns large breweries, which supply many south German inns with excellent Fuerstenberg beer. Prince Guido Donnersmarck, one of the wealthiest Silesian magnates, conducts a silk factory, the products of which are sold under the trade

mark of his royal arms. The author of this appeal begs the German aristocrats to follow these excellent

examples and renounce their ludicrous dislike

Sir Henry Campbell-Bannerman spoke hopefully to a deputation which waited upon him to urge the establishment of a national anthropometrical, survey, with a central staff, to ensure a uniformity of measurements in all

It was a very influential deputation, and included Sir Lauder Brunton, Dr. D. Cunningham (of Edinburgh University), Sir William S. Church, and Dr. Arthur Thompson. It was pointed out that the machinery was ready, and all that was needed was a Govern-

ment grant of between £4,000 and £5,000 The object of the survey would be to collect exact data of the physical and mental characters, the health, and the conditions of life of the people by messuring sufficient samples of the population at intervals of ten years.

It would be necessary to measure only about 3 per cent, of the adult population, and 18 per cent, of the school children. The Premier agreed with the deputation that in this country we were behind in this matter At the present time we fumbled and broke away

without any knowledge of the fact of the But first of all they must carry public opinion with them, and must undertake to apply of soldiers, lunatics, and criminals; what the

now wanted was a guide or comparison between people of different districts. The amount asked for was a modest sum, but it was not for him to compromise the attitude of the Treasury, or to lend to expectations that might not be entirely fulfilled.

He promised that the views of the deputation should receive the most carnest and careful consideration, and the Government would be very glad indeed to give them assistance if they could do so.

THE AMERICAN CABINET.

The Cabinet meets to-day [March 1st] for the last time in its present form, as several important changes will take place on Monday. Mr. Hitchcook relinquishes the Secretaryship of the Interior, a post in which, as I have before remarked, he has faithfully served the countryfor nearly a decade. The Secretary of the Treasury, Mr. Shaw, after weighing the advantages of a political and a business career. has finally decided in favour of the latter, and resigns to become president of the newly-formed examination to the children of the rich as well as | Carnegie Trust Company. To fill his place the poor. They had statistics as to the physique Mr. Cortelyou has been promoted from the Mr. T. Brayfield Post Office. Mr. Von Meyer, who has been Mr. and are. W. W. successively Ambassador in Rome and St. Petersburg, succeeds him in that department. Mr. & Mrs. J. Bribosia The new Secretary of the Interior, Mr. Mr. F. G. Brighton Garfield, is a son of President Garfield, and as | Mr. & Mrs. L. Broughall chief of the Bureau of Corporations has Mr. Mrs. & Miss C. E. conducted the recent investigations into the Standard Oil and other trusts. Both he and Miss Brown Mr. Cortelyoa are comparatively young, as indeed is the whole Administration, half the members of which, including the President, are under 50. Mr. Garfield started his political career as State Senator in Ohio, while Mr. Cortelyou's advancement has been rapid even. for America He was successively stenographer and assistant secretary to Mr. Cleveland, and assistant and afterwards private secretary to Mr. McKinley, and maintained the latter position under Mr. Roosevelt until his

A WONDERFUL DISCOVERY. This is thenge of research and experiment, when all mature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among the by no means least important—discoveries in medicine comes that of Therapion. particulars of which will be found in another column. This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan. Jobert, Velpeau, Maisonneuve, the well-known Chassaignae, and indeed by all those who are regarded as authorities in auch matters, including the celebrated Lallemand, and Roux, by whom is was some time since uniformly adopted, and that it is worthy the attention of those who require such remedy we think there is no doubt. From the ime of Aristoile Cownwards, a potent agent in the removal of these diseases has like the himed philosopher's stone) been the object of search of some hopeful, generous minds; and far beyond the mere power—if such could ever have been discovered—of transmuting the baser metals into gold is surely the discovery of a remedy so potent as to replenish the failing energies of the comfirmed rone in the one case, and in the other so effectually, speedily and safely to expel from the system without the id, or even the knowledge, of a second party, the poisons of acquired or inherited disease malitheir protean forms as to leave notaint or trace behind Such in The New French Remedy Therapion, which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little estentation and noise have been made, and the extensive and ever increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into obliviou all those questionable remedies that were formerly the sole reliance of medical men. Therapion may be obtained in England direct from the proprietor, and of the principal Chemists and Merchants throughout the Colonies, India, Chiun, Japan, &c., not even excluding such remote districts as Central Africa, the Fiji Islands, St. Helera &c. - Diament Field & Africa free Kimbick LEV

NEWBRO'S HERPICIDE

New Scalp Prophylactic.

Numbro's Her, icide is the first Prophylactic for the hair and realp. Its formula harmonizes with the theory (now a recognized fact) that dendruff, itching scalp and falling hair are of microbic origin. Herpicide defends the hair and scalp against disease, and by destroying the scalp microbe or dandruff germ (a tiny veget able growth,) it eradicates dandruff, stops falling hair and permits the bair to grow as nature intended. Almost marvelous results sometimes follow its use. Miss Clutter's letter and photograph certainly speak for themselves.

> "I herewith enclose you one of my 1 te to photographs, which will show you what Newbro's Herpicide has done for my hair. Since using your remedy my hair is much longer than it was, and it has that luster to it that one's bair always has when their scalp is in a healthy

Mesers, ILBART & Co., 22, Kiangse Rd., Shanghai AUD TORS:

Messrs. Lowe & Bingham, Public Accountants.

TIMHIS COMPANY is being formed for the purpose of acquiring and developing 70 more (say 12 nerse of land in the Paoshan District of Shanghai, on the North side of the International bottlement, consisting of three lots of well-raised land, detailed particulars of which are contained in the annexed Report and Estimates prepared by Mr. A. E. Algar, Architect, of Spanghai.

The properties are exceptionally well situated as regards their favourable position for European residences; the Estate flanks the New Park on three frontages, over which it has a clear and uninterrupted view the Railway forming on the west a complete barrier against any encroachment by native dwellings from that direction. The distance from the Socchow Creek to the Estates is under two miles, in an almost direct line along the North Szechnen Road, and the tramway system links up the neighbachood with the Settlements.

This neighbourhood is fast becoming a large and populated suburb, a significant fact being. than whereas five years also there were only four European houses in the vicinity, there are now nearly one hundred. The district is also considered to be cooler in summer than the Bubbling Well Road, as the breeze comes direct from the river and is not interrupted by the vast masses of houses in the Settlement. Not only is it will situated for Europeau residences, but being adjacent to the Park, now being rapidly completed, it seems probable that

with chesp tran communication, low rentals and attractive surroundings, many occupants of town hous s, especially families, would gladly exchange their present dwellings for residences which avoid dangers to children, who could therefore frequent the Park without having to traverse the crowded streets; in furtherance of this object, the Directors are prepared to consider any suggestions while building, as regards planning rooms, that any prospective tenant may bring to their notice,

Attention is also directed to the advantages of residences adjoining the new Park, and the Rife Range. The Public Swimming Bath, Chicket, Football, Lawn Tenuis Grounds and Bowling Greens in such close proximity, should attract con-iderable support, especially as in course of a few years, many of the lawns will be shaded by trees, a feature which is impossible on the Rao- Course.

It is proposed to gradually develop the Estates, erecting suitable and up-to-date residences, with gas, electric light, and water bail on, and which can be let at moderate regials to suit various incomes; owing to the proximity of the New Park, it will not be necessary to provide all houses with large gardens, which add so much to the expense of most country houses, thou h most of them will have some ground attached, and, in order to economiza space, terraces will be put up as well as semi-detached villas.

The price to be paid for the whole Estate is Tls. 175,00°, which compares very favourably with the market rate for land in the neighbourhood, not so well situated.

The Directors are advised that the Estate could carry 82 houses, together with stabling. the proposed reatals varying from Tls 60 to Tls. 75 per month, according to size and aspect. These rentals, which are based on a conservative estimate, should be sufficient to ensure a dividend of not less than 7 per cent per annum.

In order to secure a return to investors as soon as possible and diminish Working Expenses, Messra Ilbert & Co. have agreed to make a nominal charge for Management, of 图本日 Tls. 1,200 per annum, until a Dividend has been declared, when it is proposed to increase the | 2 to 12 Shang Sheg Heung Tsiu-Annual Management Charge to Tls. 3,000, and this sum will be submitted for the approval of the Shareholders in General Meeting.

The Title Deeds of the Land have been registered in the British Consulate and will be transferred into the names of the Trustees for the Company.

The Vendors have agreed to take four-fifths of the purchase money in 5,600 fully paid-up shares, a d one-fifth in cash, and to pay in addition all expenses connected with the floating of the Company, thus keeping a large interest in the concern.

Applications should be made on the accompanying form, which should be filled up and handed to the Company's Bankers, together with the amount payable on application. If no allotment is made the deposit will be returned without deduction, and in cases where the number of shares allotted is less than that applied for, the surplys will be credited towards the sum due on allotment.

Prospectuses and forms of Application can be had at the Company's Office, 22 Kiangse Road, Hougkong and London.

The above contracts and copies of the Memo randum and Articles of Association of the proposed Company will be open for inspection for a period of twelve days before the Shure Lists close, at the Offices of the Company's Legal Advisore, No. 11 Yuen-Ming-Yuen Road, Shanghai, or of Mr. A. P. Stokes, Solicitor, 15 Leadenhall Street. London, to all applicants for shares, and whether such inspection is made or not. Shareholders shall be considered as having applied upon the basis of such Memorandum, and to have full knowledge thereof.

AN APPEAL.

THE SISTERS who direct St. Antonio's CONVENT at Macao will be very thankful to Shop-keepers, Linen-drapers, Clothiers and Tailors in Hongkong, Macao, and elsewhere who will send to them remnants of material, books of patterns no longer used, and any pieces of cloth, no matter how small, of which they cannot make use.

Those who send will thus, at no cost to themselves, afford the numerous hands in the convent, especially the little ones, opportunity for useful occupation; for pieces of cloth, even of a square inch, can be stitched together and very pretty pieces of work made out of cloth, that would otherwise be thrown away. These articles are bought by charitable persons and the Sisters are thus helped to keep up their very large establishment, which is maintained by the alms of friends and in a great measure by the earnings of the girls themselves, who lead by no means an idle life within the convent
